Dairy Show Winners

GRAND CHAMPIONS OF THE SOLANCO DAIRY SHOW are left to right Ava Herr, Holtwood R1, with a Jersey; Richard Ankrum, Peach Bottom, with a Guernsey; R. Edwin Harnish, Christiana R1, with his Ayrshire, and Paul Welk, Strasburg R1, with his Holstein Dairy Judging took place on Wednesday afternoon at the Southern Lancaster County Community Fairground at Quarryville. —L. F. PHOTO

Ankrum Brothers Win Solanco Dairy Honors

Richard and Donald Ankrum, the sons of Mr. anl Mrs. Paul Ankrum, Peach Bottom, made it one, two in the Guernsey judging at the Southern Lancaster County Community Fair on Wednesday when Richard showed a two-year-old cow to the grand championship over his brother Donald's three-year old.

Paul Welk, Strasburg R1, made it three in a row in the Holstein judging when his 3-year old cow won for him the third consecutive Holstein Grand Championship rosette at the show. He beat out the senior calf of C. Marvin Murry, Drumore R1, a first year exhibitor at the fair.

In the Jersey Judging, Ava Herr, Holtwood R1 repeated her performance of last year in winning the rosette in that breed competition. Runner up to the aged cow was the senior calf of Lucille Kreider, Drumore.

The six-year-old cow exhibited by R. Edwin Harnish of Christiana R1 took the Ayrshire crown over the junior yearling entry of Dale Kreider, Quarryville R1.

Marilyn Harnish, Quarryville was tapped by judge Rex E. Carter, county agent of Fayette County, as champion of the showmanship contest. Carol Ann Krantz, New Providence R1, was declared champion fitter.

Class placings were as fol-

Secretary Henning To Speak At Agricultural Council Meet

Dr. William L. Henning, Pennsylvania State Secretary of Agriculture, will attempt to bring the agricultural leaders of the county up to date on recent farm legislation when he addresses a meeting of the Agriculture Council later this month.

Richard Green, chairman of the program committee of the council urges all council members to invite guest farmers and other interested in farming, to attend the regular quarterly meeting in the Farm Bureau Auditorium Dillerville road, Lancaster, on September 22.

After a short business session, scheduled to begin at 8:00 p.m., Dr. Henning will make his remarks concerning recent farm legislation and then invite questions on any subject members of the council wish to present.

All council representatives from farm organizations are urged to be present for this important meeting and all farmers are cordially invited, Green said this week.

SCD Approved Plans For Six NewCooperators

The Directors of the Lancaster County Soil Conservation District approved the applications for conservation plans from six new cooperators at their meeting Monday night.

The total of new cooperators this year now stands at 112 as compared to the 98 new contracts last year to

(Turn to page 11)

Ayrshire Rosette Won By Ed Harnish

R. Edwin Harnish, Christiana R1 came back from defeat at the hands of his cousin Marilyn Harnish, Quarryville R2, when they competed earlier this month at the district 4-H show at the Guernsey pavilion, to win the state crown with his two year old Ayrshire cow.

Although Harnish was the only Lancaster County showman to bring home a grand championship rosette, eight other youthful exhibitors did finish in the win colums Another Ayrshire, the junior yearling shown by Judy Ann Flory, Lititz R2 was named reserve junior champion of the Pennsylvania Junior Dairy Show held Thursday in the Farm Show building, at Harrisburg.

Only one FFA entry, and the only Guernsey from the county placed when Ross Ferguson, Kirkwood R1 showed his senior calf to 4th place in her class.

In the Holstein 4-H competition, first places were won by Averril Royer, 2025 Oregon Pike with a senior calf and Harold J. Brubaker with a junior calf. Robert J. Dum of East Petersburg, took a fourth place with his junior yearling.

In addition to the Harnish and Flory wins in Ayrshire judging, Florence M. Flory, Manheim R3, won a blue ribbon in the Senior yearling class while red ribbons were awarded to Gerald Lee Kreider for his senior calf, and Marilyn Harnish for her aged cow.

E'town Beef Rosette To Dauphin Co. Lad

Dauphin county entries took both the top spots in the baby beef show at Elizabethtown on Thursday.

The Angus entry of Harvey Gipe, the 17 year old son of Mr. and Mrs. Harvey Gipe, Senior, of Elizabethtown R2, won the nod of judge Robert Church, assistant County Agent of Northampton County, over the Hereford entry of Fern Brandt, Hershey R1.

Larry Brubaker, son of Mr. and Mrs. Robert Brubaker, Mt. Joy R1, showed his trim Yorkshire to the top spot in the market hog judging. Billy Hackman, son of Mr. and Mrs. Willis Hackman, Elizabethtown R3, exhibited the reserve champion

(Turn to page 7)

Linton Takes Title At Solanco Beef Show

Casper, a 900 pound hereford steer from West Virginia waddled to the Grand Championship for his youthful master as the Solanco Fair went into its second day at Quarryville on Thursday.

Fred Linton Jr., Quarryville R2 exhibited his first championship, although he had shown the reserve champion Hereford at the State Farm Show earlier this year.

Reserve Champion at Thursday's show was the chunky angus shown by Judy Ranck of Quarryville R2.

Earlier in the day, William Maule, son of Mr. and Mrs. Richard P. Maule won the Grand Championship female rosette in the swine judging with his senior Berkshire sow pig. The pig was shown by William's twin

FIVE - DAY WEATHER FORECAST

Saturday - Wednesday

Temperatures for the next five days will average 2 to 4 degrees above the normals of 76 to 56. Cool Saturday, warm Sunday, cool Monday with a rising trend by the middle of the week. Rainfall should total 1½ inches occurring as showers during the weekend and as more general rain about the middle of the week.

Rainfall for September thus far has been 7.42 ins. This is over twice the normal for the month and approaches the all time high of 9.83 inches for September set in 1934.

At Lancaster Yards

Trading Slow But Steady

LANC YARDS s

CATTLE: 4600 compared with 4396 last week. Supply included 50 per cent slaughter steers, 40 per cent stockers and feeders Trading was slow. Slaughter steers were steady on wgts. under 1150 lbs, heavier wgts 25, spots 50 lower. Cows were 25 higher. Bulls strong Stockers and feeders steady.

Several loads and lots of 1020-1250 lb slaughter steers, prime grade, brought 27-27 35 and the bulk of the choice grade steers 25 50 - 26 50, few loads high choice and prime 26 75, good to low choice 23 75-25.50, standard 21 50-23 50 Few lots good and choice heifers sold for 21-24 50.

Cutter and utility cows ranged from 15-17 25, while canners and low-cutters brought 14-15 25 Medium and good bulls sold at 20-22 50, good grade 22 50-24 50, few 25 25 50 Medium and good 600-800 stock steers made 22-24 50, and a load choice 738 lb 25 50 Load choice 910 lb feeder steers 24 50. medium and good 800-1050 lbs 20 50-22 50, few down to 20

CALVES 775, compared with 737 last week Trading was moderately active Vealers steady Good and choice vealers sold for 26-31, choice and prime 31-34, and a few 35, standard and low-good 20-26, utility down to 16.

HOGS 1675 compared to 1008 last week. Trading was moderately active. Barrows and gilts and sows were strong U S 1-2 195-225 lb. barrows and gilts brought 17-75 - 18 50 several lots of U.S. no 1 195-220 lbs. sold at 18.75-19. while the bulk of the U.S. 1-3 190-235 lb butchers brought 17-17 75. 235-250 lb barrows and gilts sold at 16 75-17 25. U S. 1-3 mostly 2-3 300-600 lb. sows brought 11-14.

SHEEP: 350 compared to 717 last week. Trading was moderately active. Spring slaughter lambs steady wet fleeces considered Good and choice spring lambs brought 17 50-20, and a few lots of choice and prime 80-100 lb brought 20-21, with utility and low-good 16-18 50.

Chicago Cattle

Receipts Largest Since January

CATTLE — Local receipts increased 20 per cent over holiday shortened period last week and largest since January Percentages of various grades in slaughter steer supply about 10 percent prime, 65-70 percent choice, and 20 percent good Average weight of slaughter steer several pounds below the 1161 lb. average last week

Price range through various grades of slaughter steers continued very narrow with weight as much or more a price determining factor as grade in many cases. Choice and prime steers over 1200 lbs 50-1 00 lower, weights over 1300 lbs mostly 1 00 lower Other steers steady to 50 lower Heifers mostly steady, cows steady to 50 higher. Bulls 25-50 higher. Vealers and stockers and feeders steady Five loads of prime 1225-1311 lb steers 27.00 and 27 25.

Many loads mixed choice and prime 1350-1500 lbs. 24-25 00. Bulk choice and mixed choice and prime slaughter steers 24 00-25 75. Bulk good steers 22.00-23 75.

Good and choice vealers 22 00 25 00, standard 17 00-22 00. Load choice 935 lb. feeding steers 25.40. Several loads and lots good & choice 700-950 lb. feeding steers 21 50-23 00, few mixed medium and good and medium 700-1000 lb stocker and feeder steers 19 00-21 00. Load choice 596 lb. stock steer 19-21. Good choice 596 lb stock steers 25 00.

Vintage Livestock

Largest Run On Record

Receipts at the September 13 auction at Vintage included 725 head of cattle, the largest run in the sale's history. Included in the run were 200 head of stockers and feeders.

Compared with last week's market slaughter steers were steady to 25 lower Cows were steady to weak, bulls steady.

Several lots of high choice and prime 950 to 1,250 lb. slaughter steers made 26 50 to 27 35. Bulk of the choice steers were 25 25 to 26 50. Good to low choice made 23.-25 to 26 Standard sold down to 21 and 23 with several lots of low good short fed steers at 22 to 23.

Cutter and utility cows made 15 50 to 16.85 with canners and low cutters bringing 13 75 to 15 50 Utility and commercial bulls made 21 to 22 50 with grade bulls going at 22 50 to 24

Several lots of medium & good 600 to 800 pound stock steers were 22 to 22.50 with a few common 800-875 lb. Holstein feeder steers at 17-20 to 18

Medium and good stock steer calves 22.50-23 85

Calves 515 Vealers sold 1 00 higher with good and choice bringing 25 to 31 Choice and prime made 31 to 34.50. Standard and low good made 21-26 with utility down to 17.

Hogs. 95 Barrows & gilts steady. Several lots U S 1 and 2 grades 191-206 pounds 18 to 18 10 One to three grade, 198 222 pounds 17 60 to 17 75 Few lots of 2 to 3 grade 238 to 240 pound butchers 17.25 to 17 75

Sheep: 79 Few lots cull spring slaughter lambs 9 75-11.75 Cull to choice slaughter ewes 2.50 to 6 25. Lot of medium 62 pound feeder lambs 12.75.

New Holland

Heavies Sell Lower

Receipts included 962 cattle at the September 14 auction at New Holland. Compared with last week slaughter steers were generally steady but weights above 1,200 pounds mostly 25 lower. Cows were steady to weak with bulls steady.

Several lots of high choice and prime 1,000 to 1,100 lb. slaughter steers made 26.60 to 26.85, with the bulk the choice steers at 25 25 26.50. Low good to choice made 23.50 to 25 75 while standard brought 21 to 23 25

Good to choice heifers weighing 800 to 1,002 pounds crossed the block at 21 23 85.

Cutter and utility cows were 15 50 to 16 85 Canners and low cutters 13 75 to 15 75. Utility and commercial bulls 21-23 with good grade bulls 22.50 23 85. Two lots of good grade 818 to 829 pound feeder steers 21-21 50

Calves: 369 Vealers grading average choice and below mostly 1 00 lower High choice and prime vealers 1 00 higher. Good and choice vealers 25 to 31 with choice and prime 31 to 36. Several lots at 36.50 - 37 50. Standard and low good made 20 25 with utility down to 16

The September 14 sale of dairy cattle had receipts of 163 cows, 10 stock bulls and 16 stock heifers Top quality fresh cows were in demand and active All other kinds were very draggy

Fresh cows, Holsteins $350-500. Guernseys - $200-250. others - $200-455 Bulls $110-175. Heifers - $65 135.

Hurricane Donna did not dampen the September 1 horse sale when the 206 head of horses, ponies and mules continued at steady prices All mules continued to go to the killer market

Ponies, mares - $90 180 geldings - $50 110, riding horses - $100-210, driving horses - $100-170. Killers 7½ - 8½ cents

Are you underfeeding Your
HIGH PRODUCERS?

Dairy authorities say that 7 out of 10 cows could produce more milk — with greater return over feed cost, if just given the chance.

Why? Because artificial insemination and improved selection of sires have increased most herds up to a potential of 450 lbs. of fat or more.

Special Feeding Program

The Beacon Hi-Speed Dairy Program does away with set grain to milk ratios, which tend to underfeed high producers — overfeed the low. The Beacon Hi-Speed Program provides scientific feeding schedules according to the potential production of each cow. It matches the feed to the need for more milk, greater return over feed cost.

Here are the Results

A recent summary of 23 herds on D.H.I.A. using the Beacon Program, shows increased milk production of 356 lbs. per cow. 14 of these herds had been on the Beacon program two full years Their increase per cow for the two-year period was 1718 lbs. of milk, and $43.28 *additional income over feed cost.*

Be sure your cows are producing up to the limits of their bred-in ability. Call us today for details on the Beacon Hi-Speed Dairy Feeding Program.

Delmarva-Georgia

Offerings Are Fully Ample

Delmarva reported prices of 15 to 16.80 at farms for 629,100 head during the 24-hour period ending 10:30 on Friday morning. Live offerings were more than ample for current needs.

Estimated slaughter for the weekend by eastern shore processors is 720,000 head compared to the 676,000 head last week end.

The Delmarva broiler-feed ratio for the week ending on September 9 was steady with the previous week at 3 7. Broilers averaged 17.05 and mash $91.82 per ton. For the corresponding week last year the ratio was at 3.6 broilers averaged 16.87 and mash cost $94.62.

Fluid Milk

Production Off In General

Production in general was lighter as occasional declines were noted in southeastern Pennsylvania, the Boston area and in the Atlanta section of the country. Only New York reported heavier to improved pasture conditions brought about by increased rainfall.

At New York wholesale selling price ranged $5.40 per 40 quart unit

FROM WHERE WE STAND -

Heigh Ho! Come To The Fair

Heigh Ho, come to the fair! Almost since the beginning of recorded history, fairs after harvest time have had a place in the life of rural people. The desire of the farmer to exhibit some of the fruits of his labor and the thrills of competition with his neighbors has kept the age-old tradition alive down to the present time.

Fairs take many different forms and themes from the strictly agricultural exhibitions to the other extreme of a carnival atmosphere with some farm exhibits to give it a slightly rural flavor.

The earliest fairs were of the first kind where farmers exhibited and sold their produce and livestock. Many of the first fairs were more like a market place than a fairground as we know them today.

Later, contests of skill at farm tasks were added to the program and farmers could show off their dexterity as well as the products of their lands. Soon, athletic events were included at many fairs and the holiday atmosphere took over the fairground.

With the fiesta spirit came the games of chance and with the games of chance came the sharpers with the dodge games to separate the unsuspecting adventurer from his hard earned cash.

In many places the holiday theme became so strong that the fair bore little resemblance to the original exhibitions. Many fairs were staged for the benefit of the carnival operators who used the county fair theme as an excuse to gather together a crowd to be duped into spending money on questionable games.

In recent years the fairs have followed several different courses. We feel that Lancaster County is fortunate to have several good agricultural fairs. Several counties in nearby areas have almost forgotten the rural aspect of the fair and more space is taken up on the fairground by the midway than by all the farm exhibits and exhibition arenas.

The experience with these fairs seems to indicate that a successful carnival and a successful farm show can not occupy the same grounds at the same time. In the fairs holding both agricultural exhibits and midways, the two are so nearly divorced from each other as to be almost two different areas entirely. There has been talk almost every year of a county fair for Lancaster County. Each year there are supporters of such a move, but there are those who also paint out the disadvantages of centralizing the activity and eliminating the local incentive and pride.

The local fairs do have many advantages and there are doubtless many farm boys and girls who could not or would not exhibit at a centralized fair. Most of the local fairs would likely have to fold their tents if a county exhibition were organized, but if all the effort now going into the staging of the local fairs could be combined into one centralized show, a top-notch fair could be produced.

One of the biggest problems faced by the local fair boards is the furnishing of enough space under roof for all the exhibits. A county fair association could probably build facilities to house all the animals and showring facilities for what is now paid for canvas by the local fairs.

Many facilities could be furnished by a county fair with the pooling of the capital available to all the fairs with the possibility of staging a really good exhibition. Even with the loss of the local fairs, we feel that the formation of a county fair association could be a good thing for the agriculture of the Garden Spot.

But we would like to put one reservation on the endorsement of the county fair idea. We feel that any show representing the agriculture of the county should do just that. An exhibition based on the State Farm Show would be representative of agriculture and the wholesomeness of rural Lancaster County

If the county fair were to develop on the theme of carnivals and side shows, then we are far better off with the good, small, local shows we now have

At least that's how it looks from where we stand.

BIBLE SPEAKS

International Uniform Sunday School Lessons

On To Ruin

Lesson for September 18, 1960

"STICK to the Gospel and leave politics alone," is advice often given to preachers. Whether it's good advice depends on what is meant by it. If "Leave politics alone" means that a church should not become a political party, then it is good advice. But if it means that the preacher must never mention anything so worldly and controversial as housing for the poor, wage levels, dirty politics, dishonest police, incompetent judges, or bad leadership in high places, then "Stick to the Gospel" is bad advice.

Dr. Foreman

Not only that, but a preacher shamed or scared into silence about the live issues of his time and community is false to his Bible The prophets of old were bold preachers. They pointed their fingers at sin wherever they saw it And when they saw the supposed leaders of their country setting bad examples, when they saw bad foreign policy, when they saw the weak oppressed and the shady characters given the medals, the prophets did not pull their punches or preach soothing sermons about heaven. They preached some of their most powerful sermons straight to the top-flight citizens of their time.

One of the great evils that Micah (for instance) nailed down, was what we call upside-down morals, preached and practiced by influential people. It is much worse when such people get twisted-up about right and wrong, than when obscure people do. A bum in a slum can try to tell you that wrong is right and you pay him no attention. But when rich or famous or powerful people take a wrong slant, you get mixed up. You think, "Well, surely a man as smart [or rich, or educated, or succes he is, can't be wrong!"

Robbing the People

Another evil Micah sp sharply and plainly can b in plain language robbu people. Unfortunately this done sometimes quite legall means that a wealthy corp can get wealthier simply b charging the consumer—an charge is a polite word fo ing. There is a large area southern mountains whi years was bare as the desert, a desolate despairat in the midst of green hi mountains on all sides A gre poration was letting copper go out from its chimne hindered, killing all green for miles around It took time before the goverinmen ped that. Another mill, ma turing asbestos, exposed i ployees to asbestosis, an in disease of the lungs cau asbestos lint in the air workers died, but it was fectly legal . . . till finally th stepped in and required saf vices that stopped the leg ings. But where was the c Not a voice was raised, so this writer ever heard, again ing either the green country human beings. There were phetic preachers, no pr churches, to call a spade a

Preaching for Money

The prophet Micah calls judgment another kind of who only leads on to ruin the kind of prophet (m preacher) who preaches to those who pay him best This worst kind of bad leadersnh the minister of the Gospel posed to a man of God, bu he preaches only what his we contributors will approve, t ceases to be God's spokesm wears some man's collar very early days of Christ just after the New Testame finished, there was a book gave regulations and adv church officers. It seems ther many traveling evangelist missionaries, then as now, for money. This little book rule which was very useful. visitor begs for others, he genuine, if he begs for h throw him out. The preach for himself first of all sets ample that pushes his peop ther on the road to ruin

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

TO MAKE SORGHUM SILAGE — Ma acres of forage sorghum will be made in silage yet this month; the proper stage f cutting is when the sorghum seeds are the dough stage; the crops will decrease feed value if the seed-heads are allow to get hard and mature If mixed with so beans, it is best to allow the sorghum d velopment to be the guide rather than t soybeans, which are usually cut in t small-bean stage No preservation shou be needed with the forage sorghum cro

TO MAKE GOOD USE OF SWEET SUDAN GRASS--Swe sudan grass is one of the very popular summer pasture also, it may be made into grass silage if the growth ge ahead of the livestock Local growers are urged to utili the sudan grass growth to the fullest extent in the ne two weeks so that little growth will be present when th first killing frost comes Grazing, green chopping, or ma ing silage are methods of preserving or using the crop S dan grass makes a very coarse textured hay crop Whe making into silage a preservative should be used simila mixtures of timothy or orchard grass

TO USE CAUTION AFTER A KILLING FROST — Swe sudan grass becomes poisonous after a killing frost an shouldn't be fed to livestock as fresh pasture or green sho ped forage, however, it may be made safely into silage an allow to ferment for at least three to four weeks A so -o ghum may be made into silage after a killing frost w thou any danger of toxicity However, the second growth of bot of these crops after a killing frost may be poisonous an livestock should not be allowed to graze upon it

TO PLANT WINTER OATS—Mid-September is the recom mended time to sow winter oats in southeastern Pennsy vania. Use either Dubois or La Conte varieties and sow the rate of two bushels per acre on well drained land

TO PACK AND SEAL THOSE TRENCH SILOS—With th heavy growth of corn fodder this fall temporary silos i cluding trench or bunker silos may be more widely use The corn or forage should be chopped fine (½ to ¼ inch) that it will pack more tightly. A heavy wheel type t acto on the silage during the filling operation will help press ou the air pockets and assure better quality Within 48 hou after the trench is filled and the top crowned or mounde the surface should be sealed by using either ground lim stone or the black plastic covers, the latter is the mo popular and should be held down with earth or an additio al 6-inch layer or chopped weeds or poor-quality forage

THIS WEEK

—In Washington

With Clinton Davidson

The Grange Program

Davidson

What kind of a program do the farm organizations want? That's a question that has stumped Congress and puzzled a lot of other people.

To get the answer for readers of the more than 850 newspapers which use this column, we invited the heads of the three general farm organizations to give us their recommendations

Since the 850,000-member National Grange is the oldest (93 years) of the general farm groups, the first report has been prepared by Herschel D. Newsom, whose title is Master of the National Grange

Subsequent columns will report on the views of Charles Shuman, president of the American Farm Bureau Federation, largest (1 6 million members) of the three, and James Patton, President of the Farmers Union.

Newsom Says:

"Farm income, at present levels, is not capable of generating the capital needed to continue the technological revolution that has made American agriculture the most productive in the world

"Clearly the compensation of farmers (less than half the national per family average), and of agriculture as a whole is not proportionate to our contribution of the national welfare It has not been for several years

"We must find effective mechanisms to try to give farm prices and farm income some comparable lift above that determined by the free market, comparable, that it, to the lift which is given non- agricultural prices and wages by tariffs and import duties, and by laws which protect the rights of industrial wage earners to minimum wages and collective bargaining

"It s imperative that we do something much more constructive about the problem of declining farm income down 35% since 1952) than to simply perpetuate the argument over the level of price supports, for neither provides a full answer.

The Cost-Price Squeeze

"We must attack the basic problem of the gap between farm operating costs and prices received by farmers. The real measure of a fair income for farmers is what is left after he has sold what he produced and paid the cost of production

"Substantial progress has been made in tailoring certain commodity programs (such as wool, sugar & milk marketing) to fit the peculariies of production, processing and distribution of those commodities.

"We have a diversity of farm problems which cannot be solved by a single, shotgun approach. This diversity, however, certainly does not

Hunting To Be Permitted On Most State Park Lands

Harrisburg — Secretary of Forests and Waters Maurice K. Goddard said recent y that the State Parks wi.l be opened to hunters again th.s year except where hunting will conflict with other park uses or will interfere with construction work.

Chief exception to the open hunting rule is Gifford Pinchot State Park between Harrisburg and York, where heavy construction will continue through the Fall and Winter.

Another large park under construction, Prince Gallitzin State Park in northern Cambria County, will be opened to hunting, however.

Goddard explained that hunting has generally been permitted in order to keep park wildlife populations in balance He added, however, that hunting is not one of the primary recreation activities for which parks are built and that the State Park Service will assure that other activities may continue without interference during hunting season.

Goddard stated that the State Parks are used during all seasons of the year by non-hunters, particularly school groups and Saturday hikers During October, November and December of last year, he stated, there were about 700,000 people who used the parks for purposes other than hunting as opposed to just under 50,000 hunters For this reason "safety zones" have been established where hunting is prohibited

The Parks will be open during the bow and arrow season as well as the regular gunning season

This Week

(From page 4)

compel us to move in the direction of resorting to the full, free market structure by simply lowering the level of price supports Neither does it lend itself to raising that support level to a point that would theoretically provide an equitable income for all farmers

"Slogans like "get the government out of agriculture' are pure nonsense. We're going to continue to have farm legislation and programs just as we have business and labor legislation and programs.

"Farm legislation should be designed to help farmers achieve a reasonable degree of effective regulation of marketings, place responsibility for the control of surpluses in the hands of producers, secure income from consumers rather than taxpayers, and develop economic powers comparable to those used by organized labor and most industries through use of producer-managed marketing machinery that would place farmers in a better position to obtain a reasonable income from market sales—not the government."

Hurricane Ups Some Prices

Hurricane Donna is responsible for price increases on certain produce items this weekend, reports Tom Piper, Penn State Extension Marketing Agent. Heavy rains along the eastern coastal area have delayed harvesting operations and caused extensive loss to certain field crops. Severe damage has been reported in certain sections of the Florida citrus belt but reports are incomplete at this time.

Changes taking place in the supply situation for fruits and vegetables serves notice that autumn has arrived. The local peach harvest has been completed except for a few late varieties. Some peaches are coming out of storage now and prices are higher. Rambo apples remain in good supply and prices are reasonable on the early Intosh. Harvest of St house, Jonathan and D ous varieties will beg another week to ten da

Freys Honored By Holstein Association

Brattleboro, Vt — J Mowery Frey & Son, Lancaster R7, have qualified for the Progressive Breeder's Award — the highest recognition attainable by a breeder of registered Holstein cattle.

This honor has been accorded to only 436 Holstein breeding establishments, including 47 in Pennsylvania This is the third time that the Freys have been so recognized.

The Freys' herd completed its latest Herd Improvement Registry testing year with a lactation average - calculated on a two milkings a day, 305 day, mature equivalent basis — on 63 individual records of 13,812 lbs of milk and 545 lbs of butterfat

The herd has also been officially classified for type with a breed age average of 102-7 per cent — obtained by dividing the classification score of each cow by the average score of all registered Holstein cows of the same age.

A certificate of this award has been sent to the Freys' by the Holstein-Friesian Association of America.

Ever watch a Badger *SILO UNLOADER cut through frozen silage?

You'll like the way it DOESN'T BALK. Here's why:

• **RUGGED FROST CUTTER**—special hardened blades *dig up all* frozen silage from silo walls

• **BIG AUGER**—9 inch flighting, double spiral at outer edge helps cut through frozen silage.

• **HUSKY MOTOR**—provides low-cost power to auger and blower. Can operate unloader for as little as a penny a day.

More Recipes For Freezing

by Mrs. Richard C. Spence

With the fall holidays coming up soon, some of you will have left over turkey which you may want to freeze for later use Here are some more recipes for freezing left over fowl or fow' cooked for the purpose of freezing. Freezing left overs gives appetites a chance to revive after a big feast and the food may be received much more heartily by the family.

BARBECUED TURKEY

2 tablespoons fat or oil
¼ cup vinegar
1⅓ cups water
2⅔ cups chili sauce
½ cup chopped onion
2 cups chopped celery
1 tablespoon powdered dry mustard
1 tablespoon salt
¼ cup brown sugar
2½ quarts chopped cooked turkey

Combine fat, vinegar, water, chili sauce, onion and celery. Add the mustard and salt mixed with the sugar. Heat, but do not cook enough to soften the vegetables Add turkey to sauce. Reheat.

To freeze—Cool the food quickly. Pack in freezer containers, leaving headspace. Seal and freeze immediately.

To prepare for serving—Reheat in double boiler — 30 minutes for pints and one hour for quarts. Serve between halves of buttered rolls.

TURKEY GOULASH

1 pound shell macaroni
2 quarts boiling salted water
1½ quarts hot turkey broth
2 cups cooked tomatoes
¼ cup tomato paste
½ cup chopped onion
1½ teaspoons chopped green pepper
¾ cups fat or oil
1½ cups sifted flour
1 teaspoon salt
2 quarts chopped cooked turkey

Cook macaroni in boiling salted water for 15 minutes, or until almost tender. Drain and rinse. Mix broth, tomatoes, tomato paste, onion, and green pepper. Heat fat and blend in flour and salt; add to broth mixture Cook until thickened, stirring ferquently. Add turkey and cooked macaroni.

To freeze — Cool quickly. Pack in ovenproof freezer containers, leaving headspace Seal and freeze immediately.

To prepare for serving — Bake at 400 degrees — pints for 1 hour, quarts for 1½ hours. A topping of crumbs mixed with butter or margarine may be added ½ hour before baking is finished.

* * *

TURKEY PIE

1 cup butter or margarine
1¾ cups sifted flour
1 tablespoon salt
1½ quarts hot turkey broth
1½ quarts hot milk
3 quarts diced cooked turkey

PASTRY TOPPING:

3 cups sifted flour
2 teaspoons baking powder
1 teaspoon salt
1 cup shortening
½ cup cold water

Melt fat and blend in the flour and salt. Add broth and milk. Cook until thickened, stirring constantly. Add the turkey.

For the topping, sift together the flour, baking powder, and salt Cut in the shortening until the mixture is granular. Add water and mix lightly with a fork. Turn the dough out onto a lightly floured board or pastry cloth, roll to about one-eighth inch in thickness, and cut into serving-size pieces.

To freeze — Cool the creamed turkey quickly. Pack in oven-proof freezer containers and place pastry pieces on top. Leave headspace. Seal and freeze immediately. Or freeze pastry separately. Place two layers of waxed paper between layers of pastry pieces so the frozen pieces can be separated easily, then wrap in freezer paper.

To prepare for serving — Bake at 400 degrees for one hour if packed in pint containers. If pastry was frozen separately, bake creamed turkey for 40 minutes at 400 degrees. Then turn the oven to 425 degrees and place the pieces of pastry on top, bake for another 25 minutes

* * *

TURKEY TURNOVERS

FILLING:

1½ quarts finely chopped cooked turkey
½ cup finely chopped onion
2 cups canned concentrated cream of chicken or mushroom soup
¼ cup chopped parsley
1 teaspoon salt
½ teaspoon pepper
½ teaspoon poultry seasoning

SCALLOPED TURKEY WITH NOODLES

1 pound (about 6 cups) dry noodles
3 quarts salted water
2 quarts cooked turkey meat, lge pieces
¾ cup butter or margarine
¾ cup sifted flour

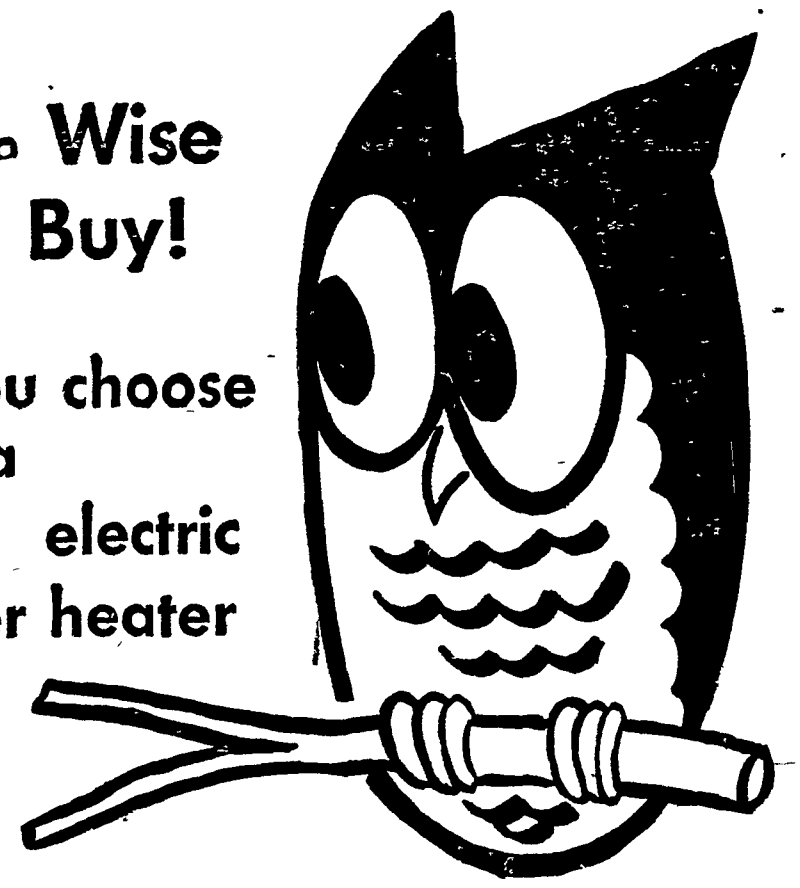
So-o-o-o Wise a Buy!

When you choose a flameless electric water heater



It's smart to get *all* the advantages you can when you buy a water heater. And that narrows the wise choice down to just one . . . a flameless automatic electric water heater . . . and here's why!

IT'S CAREFREE — install it . . . forget it . . . no fuel to order, no burner to light nor keep adjusted.

IT'S CLEAN — as dirt-free as electric light.

IT'S ADAPTABLE — no flue or chimney connections needed . . . install it nearest your point of greatest daily hot water use for top efficiency.

IT'S FULLY INSULATED — top, sides and bottom . . . touchably cool.

IT'S LOW COST — under PP&L's special water heating rate, you can heat about 40 gallons of water for less than the cost of a pint of milk.

James N. Esbenshade, Asst. Secretary

1 tablespoon salt
¾ teaspoon powdered dry mustard
1½ qts hot turkey broth
1¼ quarts grated or shredded American cheese

Cook noodles in boiling salted water for 9 minutes. Drain and rinse in cold water Arrange turkey and noodles in alternate layers in casseroles or ovenproof freezer containiners. Melt the fat and blend in the flour mixed with the salt and mustard. Stir into the broth. Cook until thickened, stirring constantly. Add cheese and stir until melted. Pour over turkey and noodles. Leave head space.

To freeze—Cool the food quickly Seal and freeze immediately.

To prepare for serving — If the food is baked in an ovenproof freezer container, add crumbs mixed with butter or margarine and sprinkle with paprika before baking If the food is transferred to a baking dish, let it heat in the oven until the food has thawed enough to press into the shape of the baking dish, before adding the topping. Bake at 400 degrees about 1 hour for pints, 1½ hours for quarts or until the food bubbles throughout.

* * *

SCALLOPED TURKEY WITH RICE

2 cups rice (uncooked)
1 quart salted water
1½ quarts cooked chopped turkey
2 cups mushrooms
¾ cup butter or margarine
¾ cup sifted flour
2 teaspoon salt
¼ teaspoon pepper
2 cups hot milk
1 quart hot turkey broth
¼ cup diced pimento

Add rice to boiling salted water and cook over low heat for about 15 minutes. Remove from heat and let stand covered 5 to 10 minutes Arrange rice in alternate layers with turkey and mushrooms in casseroles or freezer containers, leaving headspace Make a sauce by melting the fat and blending in the flour and seasonings and adding to the milk and broth. Cook until thickened, stirring constantly.

Pour just enough of the sauce into each casserole or freezer container to cover the ingredients. Sprinkle with pimiento. (Or, if desired, pimiento may be added just before baking.)

To freeze—Cool the food quickly. Seal and freeze immediately.

To prepare for serving — Bake at 400 degrees - 1 hour for pints, 1½ hours for qts. Add pimiento before baking if it was not frozen. If the food is transferred to a baking dish, let it heat in the oven about 30 minutes, or until the food has thawed enough to press into shape of the baking dish, before adding pimiento.

* * *

TURKEY HARLEQUIN

2 cups chopped onion
1 cup chopped green pepper
½ cup fat or oil
⅔ cup sifted flour
1 tablespoon salt
¼ teaspoon pepper
3 cups turkey broth
2 cups drained cooked tomatoes
2 cups apple juice
⅔ cup raisins
1 tablespoon chopped parsley
2 quarts diced cooked turkey

Cook onion and green pepper in fat or oil until tender but not brown. Stir in flour, salt, and pepper Combine broth, tomatoes, apple juice, raisins, and parsley. Heat to boiling. Stir in the onion-green pepper mixture, and cook over low, heat until thickened, stirring frequent- Add turkey and reheat to blend flavors.

To freeze—Cool quickly. Pack in freezer containers, leaving headspace. Seal and freeze immediately.

To prepare for serving — Remove from containers and reheat in double boiler, 30 minutes for pints and 70 minutes for quarts. Do not overstir. Serve over hot cornbread, biscuits, or rice.

PASTRY:

6 cups sifted flour
2 teaspoon salt
2 cups shortening
Cold water, about 1 cup

Combine all ingredients for the filling and mix well. For the pastry, sift together the flour and salt. Cut in the shortening until the mixture is granular. Add just enough water to moisten; mix quickly. Roll pastry to ⅛ - inch thickness on a lightly floured board. Cut into circles 5 inches in diameter. Place 2 to 3 tablespoons of filling on ½ of each pastry circle. Moisten edge and fold the other half of the pastry over the

Freezing Recipes

(From page 9

filling, seal the edges with a fork

To freeze—Wrap and seal for freezing and freeze immediately

To prepare for serving — Place turnovers on a cookie sheet (unless they were frozen in ovenproof containers) and bake at 425 degrees (hot oven) for 40 minutes, or until pastry is browned Serve with peas in a cream sauce if desired

POTATO SURPRISE

24 portions, ½ potato each
12 large baked potatoes
Butter or margarine
Salt and pepper
Hot milk (about 1½ cups)
¾ cup chopped onion
1½ cups grated cheese
½ cup fat
½ cup sifted flour
1 teaspoon salt
2¼ cups turkey broth
1½ quarts chopped turkey

Cut large potatoes in half lengthwise as soon as they are taken from the oven Scoop out inner portion and mash Season with butter or margarine, salt, and pepper. Add enough milk to moisten Beat the mixture until it is smooth and fluffy and add the onion Stuff the shells with two-thirds of the potato mixture Mix the remainder of the potato mixture with the cheese. Melt the fat and blend in the flour and salt Add turkey broth gradually, stirring constantly until thickened Add the turkey Make an indentation in the potato filling and fill it with a spoonful of the turkey mixture. Cover the potato halves with the potato-cheese mixture

Cool the food quickly. Wrap and seal for freezing and freeze at once To serve, unwrap and bake at 425 degrees for 55 minutes or until filling is hot and the top is browned

MOLDED TURKEY SALAD

24 portions, 1 to 4 by 4 ins.
4 tablespoons (3 envelopes) unflavored gelatin
1 cup cold water
4 cans condensed cream of chicken soup
2 quarts finely diced cooked turkey
1 quart diced celery
1 cup chopped pimiento
1 pint cooked salad dressing

Soften gelatin in cold water for 5 minutes and add to hot condensed soup. Stir to dissolve gelatin; cool Add turkey, celery, pimento, and salad dressing Pour into four 1-quart ring molds or individual loaf pans or freezer containers. Chill until firm

To freeze—dip ring mold in hot water to unmold, invert on rigid container and wrap in moisture vapor resistant material. Or if in loaf pan or freezer container cover tightly Freeze immediately.

To prepare for serving — Thaw at room temperature for 2 to 4 hours, depending on the size of the loaf frozen in a loaf pan or free

Poorly Lighted Farm Machines Cause Accidents

State Traffic Safety Commissioner O. D. Shipley said recently adequate lighting of horse or tractor-driven equipment pulled over highways during dusk or darkness should be of paramount interest to Pennsylvania farmers.

"The number of traffic accidents resulting from inadequately lighted farm equipment admittedly is not great—but virtually all are preventable," said Shipley.

Shipley noted that there're many reflective materials that will afford at least minimum protection against a possible collision which could result in costly property damage or serious bodily injury.

For a nominal expenditure farmers can purchase any one of a variety of reflective materials, such as paint, plastic or glass.

"As a rural resident, I have personally been confronted by unilluminated, slow-moving wagons on narrow country roads," said the Commissioner.

ALL "Certified" SEED IS NOT ALIK

DON'T LET ANYBODY tell you all Certified seed the same There IS a difference! A. H. Hoffman Seed Inc. is not only the largest producer of "Certified" wi ter grains in Pennsylvania, but the superior quality Hoffman "Certified" seeds exceed the state certificati standards by a wide margin.

FOR EXAMPLE:

Penna. Certification Requirements for Barley		A. H. Hoffman's Certifi WONG BARLEY (4 year average)
99.00% (minimum) —	PURITY	— 99.76%
1.00% (maximum)	INERT MATTER	— 0.23
90.00% (minimum) —	GERMINATION	— 95.00
46 lbs. (minimum) —	WT. PER BU.	— 50.6 l

The blue certification tag is not enough. The Hoffma brand tag on the seed you sow can mean bigger cr profits for you. That fact has been demonstrated no for 60 years.

For complete information and prices on Hoffman Wor BARLEY, DuBois Winter OATS, Pennoll, Dual an Seneca WHEAT, Balboa and Tetra-Petkus RYE, well as other fall seeds.

contact your Hoffman salesman today or phone TW 8-3421 for delivery right to your farm.

COWS PROPERLY CONDITIONED ...during the dry period PRODUCE UP TO 25% MORE MILK!

BEFORE CALVING This cow was fitted on the Pioneer program for 60 days before calving. Note the excellent "dry cow" body condition.

AFTER COMPLETING RECORD The same cow after having produced 23,044 lbs of milk and 941 lbs. of fat as a 4 year old. Note the extreme dairyness and exceptional body condition shown after this cow produced 11½ tons of milk!

600 pounds of PIONEER DRY and FRESHENING yields an extra TON OF MILK!

Proper feeding of the dry cow is the most important single factor affecting herd health, longevity, and a sustained high level of milk production. In 60 days, while the cow is dry, Pioneer Dry and Freshening feed will repair the body from the previous lactation, build a reserve of body condition for the next lactation, and develop a stronger calf. In addition your cows will have less calving difficulties, eliminate placenta quickly, have less udder congestion, and *most importantly they will produce up to 25% more milk!*

See us today for full particulars. PIONEER DAIRY FEEDS

County Soil Moisture High
Some State Areas Are Dry

It is a little bit difficult for Lancaster County farmers to realize that some areas in the state are suffering from lack of moisture, but this is the case as reported by the Pennsylvania Crop Reporting Service in its weekly summary.

The agency reports that the dry weather had hastened corn maturity in some counties and some late planted crops need more moisture and hot weather for additional growth if the crop is to mature properly before frost.

Some barley and wheat was seeded in northern counties during the past week, but the seeding of fall grains is not recommended in this county until the ground temperature drops to less than 70 degrees. Winter oats seeding is an exception and some fields are being seeded.

The torrential rains following Hurricane Donna brought tobacco harvest to a sudden halt for several days, but the peak of the harvest has been passed. Some of the alfalfa seedings suffered from erosion during the downpour and a few scattered corn fields on rain softened soil show some lodging, but the most extensive farm damage from the storm seems to be the large amount of topsoil washed away by run-off water from unprotected slopes.

Fall potato varieties are maturing rapidly. Dry weather in central and western counties hastened maturity but tended to curb the size of the tubers.

Late peach varieties are being picked in varying volumes in different areas of the state. Late summer apples are still coming to market. Maturity of fall apples was hastened in some of the dry areas. Dry weather in Erie County has hurt the size of the grape crop somewhat. Harvest of the purple fruit may begin within a week.

The week-end rains temporarily halted vegetable production in all but the extreme western and northwestern counties. Volume of all vegetable crops was declining, but movement is expected to be continued after a few days of drying weather. Broccoli, cabbage, corn, spinach and tomatoes are crops still to be harvested.

Buckwheat is being cut in northwestern and west central counties.

Pastures were dry and brown, but should recover rapidly, the report concluded.

Potato Storage
U.S.D.A. Has Plans For Bins

Recommendations on the strength of materials and design requirements for constructing walls and partitions of potato storages are given for builders in a report issued by the U. S. Department of Agriculture.

Marketing researchers, in studies in Maine, Colorado, and Minnesota, determined the amount of pressure potatoes exert on walls and partitions of storage bins according to size of bins and depth of potato pile. Heretofore design and construction of bins have often been matters of trial and error. Some builders have made the walls stronger than necessary on the assumption that potatoes exerted the same pressure as ear corn, but more often the walls have been too weak and have broken down under the load.

The report contains tables with data from which it is possible to select sheathing, planks, studding, and posts of appropriate dimension to be used in walls, partitions, and bulk-heads for bins for storing potatoes at various depths.

This research is part of a program aimed at expanding markets and improving the marketing of farm products.

A copy of the report, "Pressures on Walls of Potato Storage Bins," AMS-401, may be obtained from the Agricultural Marketing Service, U. S. Dept. of Agriculture.

BURLING'S CHICKS
For Top Quality Eggs

At NEPPCO Shows, our egg quality has been highest among all entries. These were hen eggs — after they had been laying 12 to 14 months. That's when Quality Eggs pay best.

At Bill Burling's you can find just what you want.

You have eight top strains and crosses to choose from. Our Sexlinks are very popular with nearby farmers.

Then there are the "pick" of the best strains and crosses for Broilers, or meat-and-eggs.

One customer said our Carey Leghorns are : "Just wonderful birds to handle". That's important in high-powered Leghorns.

Burling's Big 8

Carey's' Famous Random Sample Test-winning Leghorns. A customer made a 270-egg average on 1800 birds!

Merryknoll Sexlink (Rock x Red)—Bred by electronic "brain" methods.

Golden Sexlinks — Harco male x Andrews White Rock female. They're tough, and great layers.

Cobb's White Rocks — Broiler Test winners and good layers too.

Vantress x Cobb White Rocks — Popular for meat.

Garrison Cornish Male x Cobb White Rock female Super meat quality.

Gove's Barred Rocks. Still a favorite of many farmers.

Burling's New Hampshires. Carefully selected stock.

When you're ready to order, pick up the phone and call Oxford 286 collect.

FOR SALE: Mar., Apr. & May Leghorn Pullets

BURLING'S HATCHERY

Box F Oxford, Penna.

PURSUING THE PATH of PROGRESS

Subject: NEW BROILER FEEDS!

HERE ARE SOME OF OUR TEST RESULTS FROM EARLY BIRD AT FRUITVILLE FARMS

Control Pen	No. of Birds	Age	Avg. Wt.	Feed/lb. gain
Old formula	5000	9 wk. 5 da.	3.61	2.30
New formula	5000	9 wk. 4 da.	3.79	2.23
New formula	5000	9 wk. 4 da.	3.76	2.27

A different and more efficient balance of the amino acids and an increase in energy value substantially lowers our customers cost of broiler meat production.
